Data management and kinetic modelling of biocatalytic data is integrated into a workflow. Experimental data on reaction conditions and the time courses of substrate and product concentrations are uploaded into the BioCatNet database system.

Biotechnology Journal - Wiley Online Library

An efficient synthesis of 3-(3-oxoaryl) indole derivatives over existing methodology by using green chemistry approach was developed. The synthesized derivatives were evaluated for in vitro anticancer activity against B16F10 and MCF-7 cell lines for the first time and showed promising anticancer activity. Molecular docking studies proved that the compounds may be developed as tubulin ...

About the journal. The Journal of Chromatographic Science (JCS) is an international scientific journal presenting the latest information concerning the practice and theory of chromatography Find out more

Journal of Chromatographic Science | Oxford Academic

Ion chromatography (or ion-exchange chromatography) is a chromatography process that separates ions and polar molecules based on their affinity to the ion exchanger. It works on almost any kind of charged molecule—including large proteins, small nucleotides, and amino acids. However, ion chromatography must be done in conditions that are one unit away from the isoelectric point of a protein.

Ion chromatography - Wikipedia

Flupirtine is an aminopyridine that functions as a centrally acting non-opioid analgesic that was originally used as an analgesic for acute and chronic pain but in 2013 due to issues with liver toxicity, the European Medicines Agency restricted its use to acute pain, for no more than two weeks, and only for people who cannot use other painkillers. In February 2018 EMA's Pharmacovigilance Risk ...

Flupirtine - Wikipedia

It is a great pleasure for me to welcome you to our new open-access journal, Journal of Food Chemistry and Nanotechnology. The primary aim of JFCN is to establish a premier community for publishing high quality papers with significant new research findings and technologies, and technological improvements in the fields of food chemistry and food nanotechnology.

Journal of Food Chemistry and Nanotechnology - JFCN

Method transfer or method scaling across different LC instrument platforms can be affected by both dwell volume and extra-column dispersion. Each characteristic will have a different effect on the chromatographic separation.

Dwell Volume and Extra-Column Volume: What Are They and ...

Today's leading separation technology products that feature the latest innovations for sample preparation, column technologies, and biomolecule characterization solutions.

2019-2020 Chromatography Columns and Supplies Catalog

Open Chemistry Journal is an open access online journal which publishes review articles, letters, short communications and guest edited thematic issues on novel research in the field of chemistry including Organic and Inorganic Chemistry, Pharmaceutical and Medicinal Chemistry, Biological Chemistry and Chemical Engineering, Thermodynamics and Catalysis, Environmental Chemistry, Industrial ...

Metabolites (ISSN 2218-1989; CODEN: METALU) is a peer-reviewed open access journal of metabolism and metabolomics, published monthly online by MDPI.. Open Access - free for readers, with article processing charges (APC) paid by authors or their institutions.; High visibility: Indexed in the Science Citation Index Expanded (SCIE) - Web of Science from Vol. 6 (2016), EMBASE (Elsevier) and Scopus.

Microchimica Acta (MCA) has established itself as a premier forum for truly novel research results in chemical and biochemical analytical sciences based on the use of micro/nano-structured materials. Coverage includes fundamental ...

Microchimica Acta - incl. option to publish open access

The Standards. Published in Science in 2015 (), the Transparency and Openness Promotion guidelines include eight modular standards, each with three levels of increasing stringency. Journals select which of the eight transparency standards they wish to implement and select a level of implementation for each.
