Greek letters are used in mathematics, science, engineering, and other areas where mathematical notation is used as symbols for constants, special functions, and also conventionally for variables representing certain quantities. In these contexts, the capital letters and the small letters represent distinct and unrelated entities. Those Greek letters which have the same form as Latin letters ...

FlashCalc Version 2 - \$395 - This package is already being used extensively in the "gas patch" for dew point calculations. Now, the new API Standard 14.1, Collecting and Handling of Natural Gas Samples for Custody Transfer, recommends these calculations. FlashCalc is good enough for several of the authors of API 14.1, and it is the right software for your company!
