The pillars of Ashoka are a series of columns dispersed throughout the Indian subcontinent, erected or at least inscribed with edicts by the Mauryan king Ashoka during his reign from c. 268 to 232 BC. Ashoka used the expression Dhamma thambhā (Dharma stambha), i.e. "pillars of the Dharma" to describe his own pillars. These pillars constitute important monuments of the architecture of ...

Highlights Processes that involve protein hydrolysis steps find wide ranging applications. Proteases specificity is an important tool for food biotechnology process. Special peptides could never be achieved by chemical hydrolysis of proteins. The growing use of proteases is dependent on constant innovation studies. Enzymes stabilization continues to be a wide area for research.

Protein hydrolysis using proteases: An important tool for ...

Research Summary. My current research is at the intersection of communication theory, signal processing, and information theory. A primary research thrust is the advancement of MIMO (multiple-input multiple-output) communication technology including space-time coding, efficient receiver algorithms, channel quantization, synchronization, scheduling algorithms, cross-layer design for MIMO ad hoc ...
