The Late Enlightenment and Beyond: 1780-1815 . The French Revolution of 1789 was the culmination of the High Enlightenment vision of throwing out the old authorities to remake society along ...

Enlightenment - HISTORY

The American Enlightenment was a period of intellectual ferment in the thirteen American colonies in the 17th to 18th century, which led to the American Revolution, and the creation of the United States of America. The American Enlightenment was influenced by the 17th-century European Enlightenment and its own native American philosophy. According to James MacGregor Burns, the spirit of the ...

Phlogiston: Phlogiston, in early chemical theory, hypothetical principle of fire, of which every combustible substance was in part composed. In this view, the phenomena of burning, now called oxidation, was caused by the liberation of phlogiston, with the dephlogisticated substance left as an ash or residue.
