A foundation in the United States is a type of charitable organization. However, the Internal Revenue Code distinguishes between private foundations (usually funded by an individual, family, or corporation) and public charities (community foundations and other nonprofit groups that raise money from the general public). Private foundations have more restrictions and fewer tax benefits than ...

Current as of October 2018 | Download print version (in PDF) This section describes the legal framework of nonprofit organizations (also known as non-governmental organizations or NGOs) in Kenya, along with translations of legislative provisions relevant for a foundation or advisor undertaking an equivalency determination of a foreign grantee under IRS Revenue Procedure 92-94.

Nonprofit Law in Kenya | Council on Foundations

Natural selection is the differential survival and reproduction of individuals due to differences in phenotype. It is a key mechanism of evolution, the change in the heritable traits characteristic of a population over generations. Charles Darwin popularised the term "natural selection", contrasting it with artificial selection, which in his view is intentional, whereas natural selection is not.
